

SPEED WITHOUT STRATEGY IS A THREAT, NOT AN EDGE.

China is almost certainly seeking to displace the United States as the world's most influential AI power by 2030. (ODNI, ATA 2025)

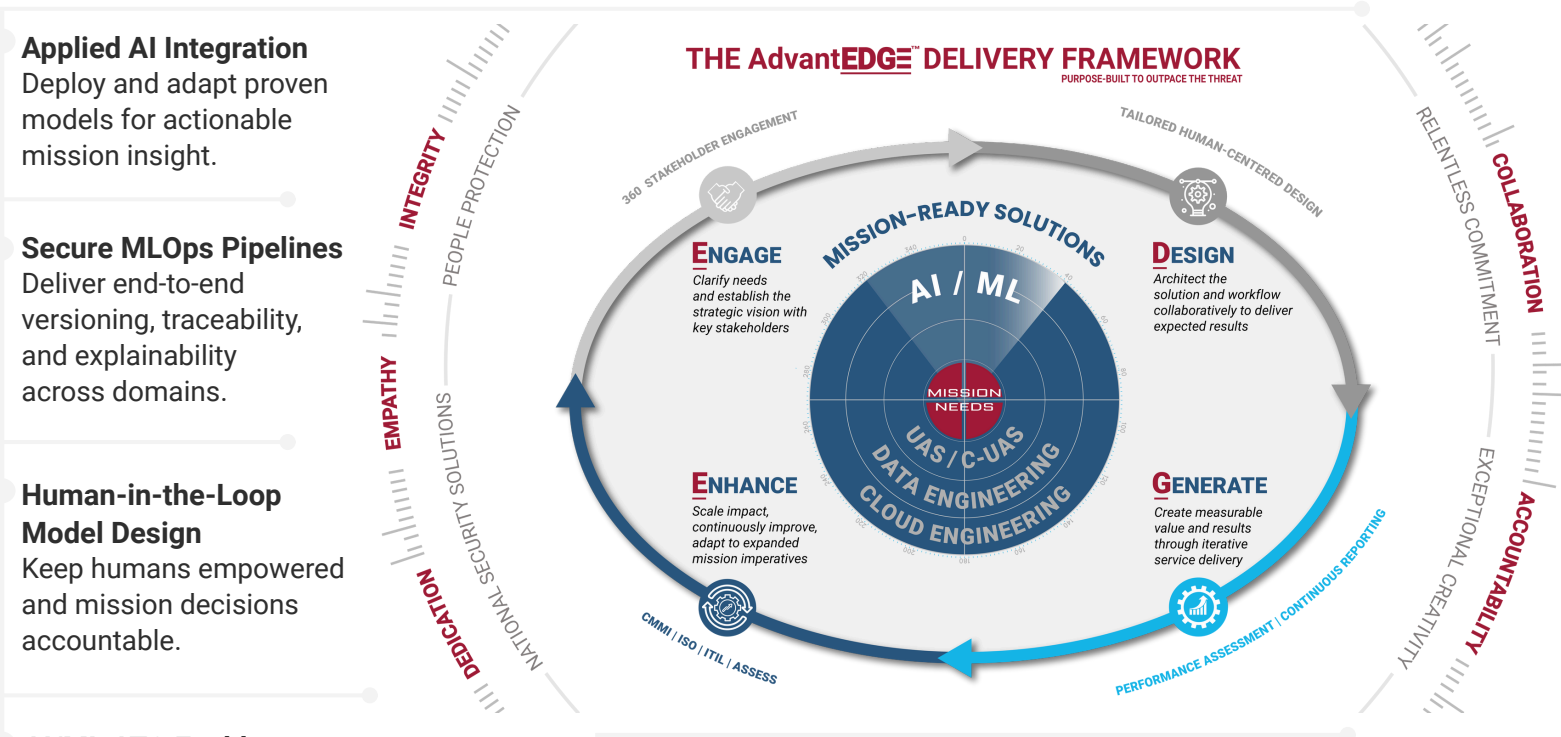

"The United States is at the forefront of AI development, and agencies must adopt a forward-leaning and pro-innovation approach that takes advantage of this technology to help shape the future of government operations." —OMB M-25-21

AI must speed decisions, not create new risks or delays. Edgesource overcomes these barriers with proven human-centered design to integrate AI/ML where it transparently adds practical, measurable value—as a force multiplier across relevant mission systems.

APPLIED AI/ML THAT DELIVERS MISSION AdvantEDGE™

At Edgesource, AI/ML is not a product—it's a mission enabler.

We operationalize AI/ML by embedding proven models in secure pipelines—ensuring explainability, compliance, and real-world impact—all powered by our distinct AdvantEDGE Delivery Framework.

The Edgesource AI/ML AdvantEDGE delivers—
real value in operationalizing AI with
transparency, accountability, and control.
Together, we move faster, safer, smarter—
and outpace the threat.

MISSION IMPACT CASE STUDY:

In this classified program, the Edgesource team went from a proven prototype to production-ready AI:

- Delivered explainable outputs that passed security review for field deployment.
- Integrated models into cloud-native, DevSecOps pipelines supporting real-time mission operations.
- Empowered human operators with AI-driven insights that improved accuracy and operational trust.

YOUR RAPID START PARTNER: CLEARED. TRUSTED. READY.

Edgesource brings a procurement AdvantEDGE to AI/ML with:

- ▶ **Acquisition-Ready Offerings:**
Awardable as small business prime on OASIS+, GSA MAS, and Navy SeaPort NxG.
- ▶ **Surge-Ready Capability:**
AdvantEDGE is designed to scale fast. We flex with mission tempo—delivering surge capacity and cleared talent when operations demand it.
- ▶ **Mission Tested, Client Trusted:**
Proven delivery on classified work—with pre-cleared teams, low-friction onboarding, and results and references that speak for themselves.

AdvantEDGE DELIVERY IS... THE ADVANTAGE.

Edgesource applied proven AdvantEDGE capabilities—from *model adaptation* to *secure pipeline integration*—to take AI/ML from lab to live operations. We delivered explainable, production-ready models integrated into cloud-native DevSecOps pipelines—empowering real-time mission decisions and operational trust.

The Result: Trusted AI. Explainable outputs. Human-machine teaming. No black boxes. Just better outcomes.

“We didn’t want another black box—we wanted trusted, explainable AI that works under mission pressure. Edgesource delivered.”

— Program Lead, Intelligence Organization

“At Edgesource, we know how to embed AI inside secure pipelines, across cloud environments, and within the trust parameters federal missions require.

We build and integrate AI that’s explainable, traceable, and operationally accountable—so mission leaders can trust what they’re using, know where it came from, and understand how it works.”

— Dustin Smithers,
Edgesource AI/ML
Solution Advisor
